PROFILE

Hello there, I'm Maaz, situated in vibrant Nigeria, and my expertise spans over an enriching three-year journey with React Native and React. I am currently in pursuit of a frontend-focused role; however, I'm equally at ease considering a full-stack position. My proficiency extends to Node.js, along with a comprehensive grasp of both SQL and NoSQL databases. Beyond my professional pursuits, I'm an avid explorer of new horizons, constantly seeking opportunities to learn and grow. And when it's time to unwind, you'll find me indulging in my passion for football.

WORKING EXPERIENCE

7/2021– 2022, Abuja, Nigeria

Frontend Mobile developer @Pyramid Finance

In the realm of frontend mobile development, I am an integral collaborator within a team of programmers and designers. My domain is crafting a diverse spectrum of projects through the prowess of React Native. My focal point lies in meticulously sculpting the frontend facets of these projects, from inception through development to continuous maintenance and adept debugging of the codebase.

8/2022 – Now, United Kingdom (England)

Full-Stack Web & Mobile Developer @Rama Dreams

As a seasoned frontend mobile developer, I possess a wealth of expertise in crafting user-centric frontend experiences for both web and mobile applications. My impactful contributions at Rama Dreams included leveraging the capabilities of React and React Native to spearhead the development of diverse projects, ranging from a dynamic job search application to a sophisticated real estate property web application, serving both web and mobile platforms. Amidst this, I exhibited prowess in diligently upholding the codebase and skillfully navigating debugging challenges, while also contributing to various other innovative projects.

SKILLS AND TOOLS

**Javascript, React, React Native, Tailwind css
(Frontend)**

**Node.js, Express.js, MongoDB, SQL
(Backend)**
