Profile

I'm well known as Maaz, I am a Self-Taught Web & Mobile developer based in Nigeria (West Africa). I Am a passionate programmer who love to build useful software and solve technical problems with my skills. I also possess excellent problem-solving skills, attention to detail, and a commitment to meeting deadlines. I am a quick learner and always eager to expand my skillset to take on new challenges and improve my abilities.

Work experience

11/2022 – Now
Abuja, Nigeria

Frontend Mobile an Web Developer Pyramid Finance

As a frontend mobile & web developer, i work alongside other programmers and designers to build a wide range of projects and I'm responsible for building the frontend user-interface of the web and mobile application, api integration, debugging etc. I have a proven track record of delivering high-quality code that is clean, efficient, and maintainable. Throughout my career, I have worked on projects of varying complexity and have experience working both independently and as part of a team.

02/2022 – 08/2022
New York, USA

Frontend Web developer Otif

As a skilled frontend mobile and web developer, I have extensive experience in designing and developing user-friendly interfaces for websites and web applications. I am proficient in HTML, CSS, and JavaScript, and have experience working with a range of frontend frameworks such as React, Bootstrap, and Tailwind, etc. My experience includes collaborating with designers and stakeholders to understand their requirements and create wireframes and mockups that accurately reflect the desired user interface. I am adept at implementing responsive design principles to ensure that the application is accessible and functional across a range of devices.
